MISSION

At Pure Gelatine Mmita, our mission is to deliver premium Halal-certified gelatine to the global market, ensuring the highest standards of quality and sustainability. We aim to foster long-term partnerships by consistently exceeding our customers' expectations in both product quality and service.

VISION

Our vision is to become a globally recognized leader in the gelatine industry, known for our innovative production methods, unparalleled quality, and commitment to customer satisfaction. We aim to supply high-quality gelatine that supports the well-being of consumers worldwide.

CORE VALUES

Quality Assurance:
We prioritize safety and quality in every step of our production process, ensuring that our gelatine meets the highest global standards.

Innovation:
Pure Gelatine continually invests in research and development to enhance our product offerings and meet evolving market needs.

Sustainability:
We are committed to eco-friendly and sustainable manufacturing practices, minimizing waste and conserving natural resources.

Customer-Centricity:
Our focus is on delivering value to our customers by understanding their needs and providing tailor-made solutions that enhance their products.

Integrity:
We conduct business with honesty and transparency, maintaining strong relationships with our clients, suppliers, and stakeholders.

KEY APPLICATIONS

- Food & Beverage:** Confectioneries, Gummies, marshmallows, yogurts, dairy desserts, soups, and sauces.
- Pharmaceuticals:** Capsule shells, tablets, wound dressings, and other medical applications.
- Nutraceuticals:** Used in functional foods and dietary supplements.
- Cosmetics:** Used in creams, lotions, and hair care products for its gelling and moisturizing properties.
- Production Capacity:** Up to 10 tons of gelatine production per day. Certified production process ensuring compliance with Halal standards.
- Quality Standards & Certifications:** Meet Customers' Emerging products meet the safety requirements of their consumers worldwide. ISO Certification, certified for food safety and quality management (specifically applicable to our products), e.g. ISO 22000, ISO 9001:2015 Compliance. Adhering to Good Manufacturing Practices at all stages of production.

Edible Gelatine:

Our edible gelatine is widely used in food products such as confectionery, desserts, jellies, dairy products, and beverages. It provides excellent gelling, thickening, and stabilizing properties, making it an essential ingredient in various formulations.

Pharmaceutical-Grade Gelatine

Pure Gelatine's pharmaceutical-grade gelatine is suitable for the production of soft and hard capsules, tablets, and other drug delivery systems. Its high purity and biocompatibility ensure that it meets the stringent requirements of the pharmaceutical industry.

GLOBAL REACH

Pure Gelatine serves clients around the world, providing consistent, high-quality gelatine to various industries. Our strategic location allows us to efficiently distribute our products to international markets, offering flexible logistics solutions to meet our customers' needs.

- Research & Development**
Our R&D department plays a vital role in developing new products, improving formulations, and optimizing our manufacturing processes. We work closely with our customers to develop custom solutions that meet their specific product requirements. "Let me know if you need further adjustments!"
- Sustainability Commitment**
At Pure Gelatine, we are dedicated to responsible sourcing and environmentally sustainable practices. Our production processes minimize waste, conserve water, and utilize renewable energy wherever possible. We are continuously working to reduce our environmental impact while maintaining the highest quality standards for our products.

WHY CHOOSE PURE GELATINE LIMITED
